## Limitless skiing fun!

The Arlberg has always been known for its pio-neering spirit when it comes to winter sports – Hannes Schneider revolutionised the skiing tech-nique known as the Arlberg school of skiing; in 1937, Austria’s first T-bar lift was built in Zürs, and the Galzigbahn cable car in St. Anton was the first cable car designed for winter operation. These and other innovations made the Arlberg famous as the cradle of Alpine skiing.

An average of 9 metres of snowfall each winter and about 70 percent of mechanically covered pistes make the St. Anton, St. Christoph, Stuben, Zürs, Lech, Schröcken and Warth area one of the most reliable in terms of snow conditions. In Austria’s largest skiing resort – and one of the five largest skiing areas worldwide – skiers can explore 305 downhill skiing kilometres, 200 kilometres of deep snow skiing and 88 lifts and cable ways, as well as the spectacular Run of Fame skiing round.

Welcome to Ski Arlberg!

### Other tariffs

**Lift pass extension:** **Administration charge per extension:** **Adults Youths / Seniors: 12,00; Children: 7,00;** Personalised lift passes for 6 days or more can be extended (against additional payment) to cover a maximum validity period of 21 days. **If lift passes which have not yet been personalised are to be extended, this must be done on the 4<sup>th</sup> day of their validity, at the latest. Photo is sufficient.**

**Sunshine Subscription Arlberg – for guests without winter-sports equipment: 7 days (with photo): Adults 125,00; Children 75,00;** valid for the following lifts and cable cars: **Lech / Oberlech / Zürs:** Zugerberg, Rüfikopf, Schlegelkopf, Schlosskopf, Bergbahn Oberlech up until 6 pm, Petersboden, Weibermahd, Seekopf, Trittkopf I und II, Zürsersee and Flexenbahn. **St. Anton / St. Christoph:** Galzig, Gampen, Nasserein, Välluga I und II, Kapall, Rendl and St. Christophbahn. **Klösterle / Sonnenkopf:** Sonnenkopfbahn.

**Mixed price charges:** if the validity of a lift pass extends over several seasonal tariffs, a mixed price is calculated.

### General

Payment options:

**All prices in € including VAT, additional €5,- deposit charge for the Ski Arlberg card. The General Terms & Conditions of Ski Arlberg apply. Subject to changes!**

The chip card remains the property of Ski Arlberg.

## Ticket booths opening hours

**St. Anton:** 8:00 am – 4:30 pm

**St. Christoph:** 8:15 am – 4:15 pm

**Stuben:** 8:00 am – 4:30 pm

**Lech, Oberlech and Zürs:** 8:00 am – 4:45 pm

Ski pass centre Lech (Rüfikopf valley station) up until 6:00 pm

**Klösterle, Sonnenkopf:** 8:30 am – 4:30 pm

**Pettneu tourist office:** Mo–Sa 8:00 am – 6:00 pm,

Su 8:00 am – 11:00 am

**Pettneu Wellnesspark:** Mo–Thu 10:30 am – 8:30 pm,

Fr–Su 10:30 am – 9:00 pm

**Warth:** 08:30 am – 4:30 pm

**Schröcken:** 08:30 am – 4:30 pm

During the main season, extended opening times at the main cash points for advanced ticket sales: in Lech and Zürs on Saturday, in St. Anton and Nasserein on Saturday and Sunday.

- Start of season:** 29.11.19; Warth / Schröcken and Klosterle-Sonnenkopf: 06.12.19  
**End of season:** 26.04.20 (from 20.04.20 limited operation!); Warth / Schröcken and Klosterle-Sonnenkopf: 19.04.20
- Daily choice lift passes** are person-specific (photo) and therefore not transferable. The points are redeemed automatically the first time you pass the electronic reading devices, whereby the time shown on the reading device is decisive. Please observe the display! Points deduction: before 11:50 am = 3 points; after 11:50 am = 2 points; after 3:00 pm = 1 point. Daily choice lift passes are only valid in the winter season in which they were issued. Out of fairness, we offer the following: points remaining from the previous season can be used up until 10 Jan. of the following winter season. When a new lift pass is purchased by 10 Jan. points remaining from the previous season will be added on (older points will be forfeited without exception!) up to a maximum of the same number of points contained in the newly purchased daily choice lift pass. Points left over from the previous winter season will be forfeited without exception after 10 Jan. of the current season. Residual points can no longer be taken into account from this date, even if a new lift pass is purchased. Subject to the tariff regulations of the Arlberg ski pass pool. The General Terms and Conditions of Ski Arlberg apply.
- Lift passes sold in advance:** possible for the following day. Can be used from 4:00 pm the day before they become valid. Ski passes are valid on consecutive days.
- When restrictions apply** in Lech-Oberlech-Zürs and /or Warth-Schröcken these tickets will be issued in St. Anton, St.Christoph and Stuben and at Sonnenkopf with limitation of validity for the respective lifts / cable cars.
- Proof of age required.**
- Children are conveyed** in accordance with the terms and conditions outlined in the conditions of conveyance.

The **ski pass** is strictly non-transferable; it cannot be passed on to others, exchanged or modified.

The **operating hours** of the various lifts and cable cars are listed on the website at [www.skiarlberg.at](http://www.skiarlberg.at) and at the ticket vending points for the respective rides.

**To avoid waiting at the lift pass cash desks** many hotels / guest houses offer the option of obtaining lift passes directly at the premises (without extra charge). Please enquire about this at your accommodation.

**3Tälerpass:** for holders of season tickets or multiple day tickets of the 3-valley pass, attractive Ski Arlberg swap day tickets are available. For more information, visit [www.skiarlberg.at](http://www.skiarlberg.at)

### General Terms and Conditions of Ski Arlberg (GTC)

**Contractual partner:** The members of Ski Arlberg operate their respective lifts, ski slopes, ski routes and fun sports facilities (hereinafter collectively referred to as "facilities") on their own authority and as legally independent entities. The purchase of a pass (= any ticket of any kind that entitles the holder to use a lift) for the facilities of the members of Ski Arlberg entitles the purchaser to use all facilities covered by Ski Arlberg. However, the actual transport contract is only concluded with the mountain railway company whose facilities are currently being used by the contracting party. Any liability, whether based on contractual or statutory provisions, for incidents arising from or in connection with the operation and use of the facilities shall therefore be borne exclusively by the mountain railway company whose facilities are used during the incident. Any other mountain railway companies of Ski Arlberg shall not be held liable. **Personal data:** When purchasing a name-based ski pass (personalised Arlberg Card) and when purchasing a ski pass at authorised Ski Arlberg sales outlets (e.g. hotel, tourism association), the personal data of the purchaser (first and last name, date of birth, postal address, hotel address, possibly credit card data and account data) are also recorded and processed. Further information is given in the General Terms and Conditions (in particular sections 6, 7 and 21 of the GTC). **Failure to transport pass holders:** The mountain railway company is not obliged to transport the holder of a valid ski pass if transport is impossible or inadmissible for reasons for which the mountain railway company is not responsible. Such reasons include not only weather-related effects (e.g. strong wind) and risk of avalanches, but also downturns due to prescribed maintenance work or technical faults. If the ski pass is not used for reasons for which the card holder is responsible (e.g. non-use of the ski pass during bad weather, illness, injury resulting from ski accidents and unforeseen departure), the holder is not entitled – with the exception of non-use as the result of winter sports accidents (see below) – to reimbursement or credit of the fee paid for the ski pass or extension of the validity of the ski pass to the extent of non-use. **Limitation of available tickets:** For safety reasons we reserve the right to limit the sale of day tickets or ski passes at short notice if there is a risk of overcrowding on the ski slopes. We apologise for any inconvenience caused in such exceptional cases. **Checking the validity of ski passes, blocking ski passes, loss of ski passes:** The ski pass is not transferable. Ski passes that have not been purchased at Ski Arlberg's authorised sales outlets, lost ski passes and ski passes that have been improperly acquired or used will be blocked. The validity of the ski passes is checked at the valley or mountain stations of the lifts, at the other facilities, in the cash desk area or at the parking areas by scanners and /or by the employees of the mountain railway company, to whom the ski pass must be presented at all times upon request. In order to prevent misuse of the ski pass (processing purpose), a reference photo is taken of all card holders the first time they pass through a scanner equipped with a camera. The person shown on the reference photo is compared by the employees of the mountain railway company with the person who passes the scanner equipped with a camera. The reference photo is deleted after the expiry of the ski pass, unless it is needed for evidence purposes in a pending or threatened legal dispute. In this case it will be kept until the end of the lawsuit. Any attempted or actual misuse of the ski pass or the circumvention of the scanners shall result in the immediate withdrawal of the ski pass, collection of the transport charge stated in the tariff conditions and the penalty set out in the tariff conditions, notwithstanding any criminal consequences. In case of violation of the conditions of transport, violation of the closure of ski runs (e.g. due to the risk of avalanches), the ban on skiing in forest areas or the FIS rules, the card holder will be excluded from transport, and in serious cases and in event of repeated violation the ski pass will be withdrawn without replacement and a complaint will be submitted to the respective authorities. Lost ski passes are not replaced. However, the loss of a ski pass (valid for three days or more) whose holder is registered by name (personalised Arlberg Card) can be reported to the ticket offices. Upon presentation of the proof of purchase and proof of identity (identity card), it is possible to block these ski passes at the access control points and to obtain a replacement card upon payment of a processing fee. Without presentation of the purchase receipt and proof of identity, no replacement passes can be issued even for personalised ski passes. **Refunds:** A refund or credit of the fee paid for a ski pass is only possible in the event of injuries caused by ski accidents that make it impossible to continue use of the ski pass and only for ski passes with a validity period of two days or longer. No refunds are granted for accompanying persons. The validity of the ski pass is not extended by the length of time it has not been used. The refund will be made on a pro rata basis from the last use of the ski pass (but not before the first day after the accident) if the ski pass is no longer used after the accident. The cash receipt and a medical certificate from a doctor resident in the Ski Arlberg resorts confirming that it is no longer possible for the holder to use the ski pass must be presented. Refunds are made in Lech at the ski pass centre (valley station Rüfikopf), in Oberlech at the Petersbodenbahn, in Zürs at the Trittkopfbahn, in St. Anton and Stuben at the main ticket offices and in Warth Schröcken at all ticket offices. **Transport of children:** The permissible method of transporting children is described in the transport conditions of the individual lifts. These transport conditions are posted at the access points to the lifts and must be complied with. Skiing accidents: In the event of skiing accidents, the exact accident report can be sent from the emergency call point, the nearest lift station or the designated reporting point as well as by mobile phone. The phone numbers for piste rescue can be found in the "Information block" of the Ski Arlberg panorama brochure. The use of the piste rescue service is subject to a charge and the service providers must be paid a contribution to the costs for rescue and transportation after accidents which is not included in the price of the ski pass. **Arlberg Safety Card:** The Arlberg Safety Card (ASC) can be purchased at the Ski Arlberg sales outlets. The General Terms and Conditions for ASC apply. The contractual partners of the purchaser of an ASC are not the members of Ski Arlberg. Only the purchaser of this card is entitled

### Funparks

**St. Anton: STANTON PARK at the Rendl**  
**Lech: Snowpark / Easypark at the Schlegelkopfbahn**  
**Warth: at the Wannenkopfbahn**  
**Sonnenkopf: at the Sattelkopplift**

### Giant slalom run

**Lech: at the Hinterveitslift** parallel slalom run with Photopoint; **Zürs: at the Babyflits**; **S. Anton: RENDL RACE at the Rendl**; **Stubai: at the Walchflitz; Schracken: at the Saloberjet**; **Sonnenkreuzer** parallel slalom run **Warth: at the Wartherhornbahn, at the Wannenkopfbahn** with video recording (ski movie)

### Funslopes

**Lech: at the Schlegelkopfbahn**  
**St. Anton: at the Östhangbahn**  
**Warth: at the Wannenkopfbahn**

### Sledging run

**Lech-Obereich: 1.2 km long sledging run with lighting and snow cannons from Obereich to Lech. Open all day from 09:00–22:00**  
**Sledges can be hired at Bergbahnen Obereich, St. Anton Gampen: 4.3 km long nature sledging run with lighting, to Nassenen, open daily from 12:00–16:15h, Tuesdays and Thursdays: night sledging from 19:30–21:30h, Warth: Sledging run at the Dorfbahn. Sledges can be hired at the bottom station. The run is operated during the operating hours of Dorfbahn Warth. Details of the weekly evening**

### Speed Check

**St. Anton: STANTON SPEED at the Rendl**  
**Lech: at the Weiheralmbahnen**, with Photopoint and a benchmark time by Olympic champion Patrick Orlitz

**Ski pistes** are signed and prepared if possible; they are checked and secured against atypical alpine dangers, especially avalanches.

 **Piste: easy**       **Piste: difficult**

 **Piste: medium**

**Ski routes** are signed and only secured against the risk of avalanches; they are not, or not all, prepared and are not checked.

 **Ski route**

 **Ski route : extreme**

For information on the current piste conditions see the panoramic board at the cable car stations.

Piste and ski route signs:

	= closed		= yellow flashing light: Outside the safe area there is a risk of avalanches, grade 4 (= SEVERE) or 5 (= VERY SEVERE).
	= open		= orange flashing light: piste machines in operation

**Closed pistes and avalanche blasting:** It is forbidden and a chargeable offence to enter closed pistes or ski routes. It is not permitted, without exception, to enter forested areas and walk or sled on closed pistes. From the checking room, immediately after the last ascent, pistes and ski routes are closed due to the danger from piste work and cable waches. Caution! No safety cordons! When there is a risk of avalanches do not use closed runs. In order to safeguard their own safety, people entering tours outside the safeguarded and open ski slopes are responsible for obtaining information about blasting from the Management. **Caution:** During and after fresh snow falls there will be lower stations. **Ski accidents:** In the case of an accident, please report this as exactly as possible, using the emergency call point, nearest lift station or designated call point. For the telephone numbers for the piste rescue service see

respective area refers to the information block. The piste rescue service is chargeable. **Piste preparation:** The use of piste machines, also while the pistes are in operation, cannot be avoided. Please be sure to take a safe distance from these machines. Do not cross above piste vehicles on steep slopes as these may accidentally slip down. Where the piste is restricted, in narrow passages or on cat-tracks apply extra care because piste vehicles may come from the other way. **Frost/snow:** The Arlberg lifts and cable cars are well known for their effort to offer perfect piste conditions every day. However, after a heavy snow fall it is unfortunately not always possible to prepare all pistes at the same time, even if the weather is favourable. In the event of strong and/or long-lasting weather conditions, fresh snow will not attach to the older snow covering below and will slide onto to form heaps and bumps, in spite of the preparation work. This cannot be prevented, even with the best piste management.

**F I S** So that you can enjoy your sports activities at our ski resort in safety, we ask skiers and snowboarders to comply with the current FIS rules and to be careful and considerate of others. The FIS rules are displayed in full at many lift access points and can be viewed at [www.skiarberg.at](http://www.skiarberg.at)
