REGULATIONS FOR THE USE OF SKI PASSES

Ski passes are non-transferable and must be shown to inspectors without being asked. SkiWelt acts in accordance with the official directive §12.DSG 2018 on "Photo Compare and video surveillance". Full details of our Privacy Policy at www.skiwelt.at/data-protection. Transfer of tickets or any improper use thereof will result in immediate cancellation of the ski pass and the imposition of a penalty charge; we also reserve the right to prosecute. Infringement of transport regulations, disregard of ski run closures (due to the danger of avalanches and other safety reasons), ignoring the ban on skiing in forest areas and non-compliance with FIS rules will result in the denial of transportation. In serious cases, the ski pass will be cancelled and the matter reported to the authorities to press criminal charges. "Force majeure", bad weather, danger of avalanches, unforeseen departures, operational interruptions, ski run closures, premature termination of lift operations, official closures, epidemics and pandemics etc. provide no entitlement to reimbursement or extension. With the exception of seasonal ski passes, refunds can only be made in the event of sports accidents (but under no circumstances for illness) for ski passes with a validity period of 3 days or more. Only the ski pass of the person involved in the accident will be reimbursed - no reimbursement for accompanying persons. The sports accident certificate must be submitted within 2 days of the injury and later claims cannot be considered. All refund guidelines can be found in the SkiWelt General Terms and Conditions. Persons with a 70% or greater degree of disability (ID required) pay the youth rate for all SkiWelt prices (except Points Cards), but there are no discounts for the disabled on SuperSkiCard prices. Mixed prices in the event of seasonal overlaps are automatically calculated by the cash system. The individual services, to which you are entitled with the card you have purchased, are provided by legally independent companies. The company selling the card acts only as the agent for the other companies. Only the relevant company, therefore, is obliged to provide the individual services and to compensate for any incidents. By purchasing a ski pass customers automatically accept all SkiWelt regulations, terms and conditions, which are available at www.skiwelt.at/tariffguidelines.

- ★ The entire SkiWelt Wilder Kaiser - Brixental with its 81 lifts has been powered by 100% green electricity from Tyrolean hydropower for over 20 years.
- ★ Back in 2008, the SkiWelt built the world's first solar-powered lift.
- ★ Photovoltaic systems or heat recovery systems are used e.g. for heating used by lift stations. Highlight: already since 2008, a hut has been heated using the heat generated by 2 gondola lifts.
- ★ Since 2017 there has been a nationwide snow measurement system. This gives a saving of over 20% snowmaking resources throughout the SkiWelt.
- ★ Continually new environmental projects.
