HERE I AM AN EMPEROR

WELCOME TO THE IMPERIAL WINTER WONDERLAND

Jagged mountain giants, an enchanting lake and lots of untouched nature await you in wintry Kaiserwinkl. In this fairy-tale landscape you can relax, switch off and find peace. Enjoy a winter wonderland that is straight out of a picture book.

Of course, it can also be action-packed: As an active winter sports enthusiast, you will get your money's worth. Are you a cross-country skier, downhill skier or snowboarder? Do you like snowshoe hiking or winter hiking? Then Kaiserwinkl is the right place for you!

You will be welcomed by us with typical Tyrolean hospitality and you are guaranteed an unforgettable winter holiday.

SIMPLY IMPERIAL HOLIDAYS

KÖSSEN

Kössen is particularly captivating for winter sports enthusiasts: during the cold season in a wintry glow of lights countless paragliders take off from Unterberg mountain, while skiing and snowboarding enthusiasts zigzag down the mountain and cross-country skiers enjoy the endless cross-country trails at the foot of the mountain. Kössen is a true El-dorado for athletes from all over the world.

WALCHSEE

Walchsee, the town and the lake, present themselves calmly and magically in accord, complement each other harmoniously and offer a backdrop for unbelievable natural spectacles. The ice covered Walchsee is magical when the temperatures are freezing cold. In the winter season, the easy slopes attract families and beginners alike, who learn their first turns with a lot of fun.

SCHWENDT

Great and mighty, the Wilder Kaiser mountains look down on the tranquil mountain village of Schwendt. Idyllic, almost kitschy, this jewel of the Alps seduces its guests with a relaxed atmosphere and tranquility. But here, too, the fun doesn't come short: a cheerful toboggan run followed by a hot cup of tea by the open fireplace provide variety and enjoyment.

RETTENSCHÖSS

Rettenschöss is contemplative and incredibly charming in winter, because the Zahmer Kaiser mountains are a constant companion in the village and attract attention with his clothing of white. While the mountains and valleys are covered in snow, you can feel how the inner peace and the connection to nature grow - especially during magical winter hikes in the crystal clear mountain air.

KÖSSEN

ENJOY EVERY TURN

The Hochkössen mountain railway will take you quickly and comfortably to the 1,430 m high mountain station at the top of Unterberg mountain. Not only a true parade ski area awaits you there, but also a ski region with absolutely guaranteed snow. The impressive view of the imposing mountain world of the Wild Kaiser and the Zahmer Kaiser mountains is particularly breath-taking. In this dreamlike scenery you can enjoy the fantastic slopes down to the valley moment by moment. Find your own pace.

OUR TIP

Don't forget to stop for a bite to eat – our numerous ski huts serve delicious delicacies from the region.

CROSS-COUNTRY SKIING IN THE VALLEY

Unpack your cross-country skis and conquer the record-breaking 240.5 km network of cross-country ski trails in the valley, which lead across the entire Kaiserwinkl. On one of the longest cross-country ski trails in Tyrol at 21 km, you will get to know the entire region and its variety. For all the night-owls among you, there is also a well illuminated night trail.

GOOD TO KNOW

Our cross-country ski trails have been awarded the Tyrolean cross-country trail seal of quality.

FLY KÖSSEN

You will surely hear the flying greeting often on the Unterberg-horn at about 1,800 m above sea level. Here, you are in the middle of the stronghold and pioneer site of European hang gliding and paragliding. Flight enthusiasts from all over the world float like majestic eagles overhead and draw colourful patterns in our skies every day. Try it out or take off in a hot air balloon.

OUR TIP

Visit the unique Kaiserwinkl Alpine-Balloon, which is also the largest balloon meeting in Central Europe.

WOULD YOU CARE FOR SOME MORE?

Kössen, snow-covered in winter, offers a lot of variety: on a snow-shoe or winter hike, inner peace comes automatically when you breathe the fresh alpine air and enjoy the silence of nature. During a romantic horse-drawn carriage ride you can gather unforgettable impressions. Fun and action awaits you while snow-tubing.

WALCHSEE

DARE TO TAKE THE FIRST TURN

The small but extremely fine skiing area of Walchsee is ideal for young families, because you will find easy slopes at the edge of the village at the foot of the Zahmen Kaiser mountains. These are perfect for all skiers and snowboarders who practice their first turns. Our littlest holidaymakers especially love the ski region, as the child-friendly ski school and the modern ski kindergarten with magic carpet and carousel provide variety.

OUR TIP

Learn the joy of skiing in a playful and relaxed way.

CROSS-COUNTRY SKIING ENJOYMENT GUARANTEED

The Kaiserwinkl region is famous for its cross-country skiing far beyond the borders of Tyrol. The reason for this is its extensive network of cross-country trails, which has been awarded the Tyrolean cross-country trail seal of quality. The Kaiserwinkl is also one of the top cross-country skiing areas in the Alps because of its approximately two kilometres of snow-covered cross-country ski trails, which are completely independent of the weather conditions of winter.

OUR TIP

Glide over the freshly groomed cross-country ski trails on Walchsee or circle the Schwemm Nature Reserve (Natura 2,000).

CHRISTMAS FAIRY-TALES DO COME TRUE

In winter, the snow-covered Lake Walchsee and the village of the same name are reminiscent of a fantastic fairy-tale landscape. Especially during the Christmas season, when streets, houses, guesthouses and hotels are illuminated and decorated trees line the streets, you will be reminded of an Alpine Christmas from old times. Tradition and customs are now at the centre of life. The locals celebrate the Advent season quietly and contemplatively. Children's wide eyes watch as the lovely village prepares for Christmas.

Heat 1 litre of red wine with 3 cinnamon sticks, lemon zest, 1 lemon (in slices), 1 orange (in slices), 6 cloves and 5 Tbsp. of crystal sugar for 1 hour, but do not boil. Remove from heat and leave to stand for at least half an hour.
Enjoy mulled wine warm!

SCHWENDT

ORIGINAL & CONTEMPLATIVE

The dreamy mountain village of Schwendt is just a few kilometres further into the Kaiser mountains and at 700 metres above sea level. Here you will find ski trails, wild animal tracks in the snow and hear horse-drawn sleighs gliding through the wintry mountain landscape instead of cars. In this fairy-tale-like village everything is still very original, here you will learn to appreciate the simple things like cosiness and peace. Cut off from the noise of the world, Schwendt is perfectly connected to the other towns in the region by the cross-country trail network and the connecting road.

A highlight is the toboggan run near Schwendt. On beautiful winter days there is always a lively hustle and bustle. Big and small unpack sledges, bobsleds and toboggans and conquer the slopes with lots of fun and laughter.

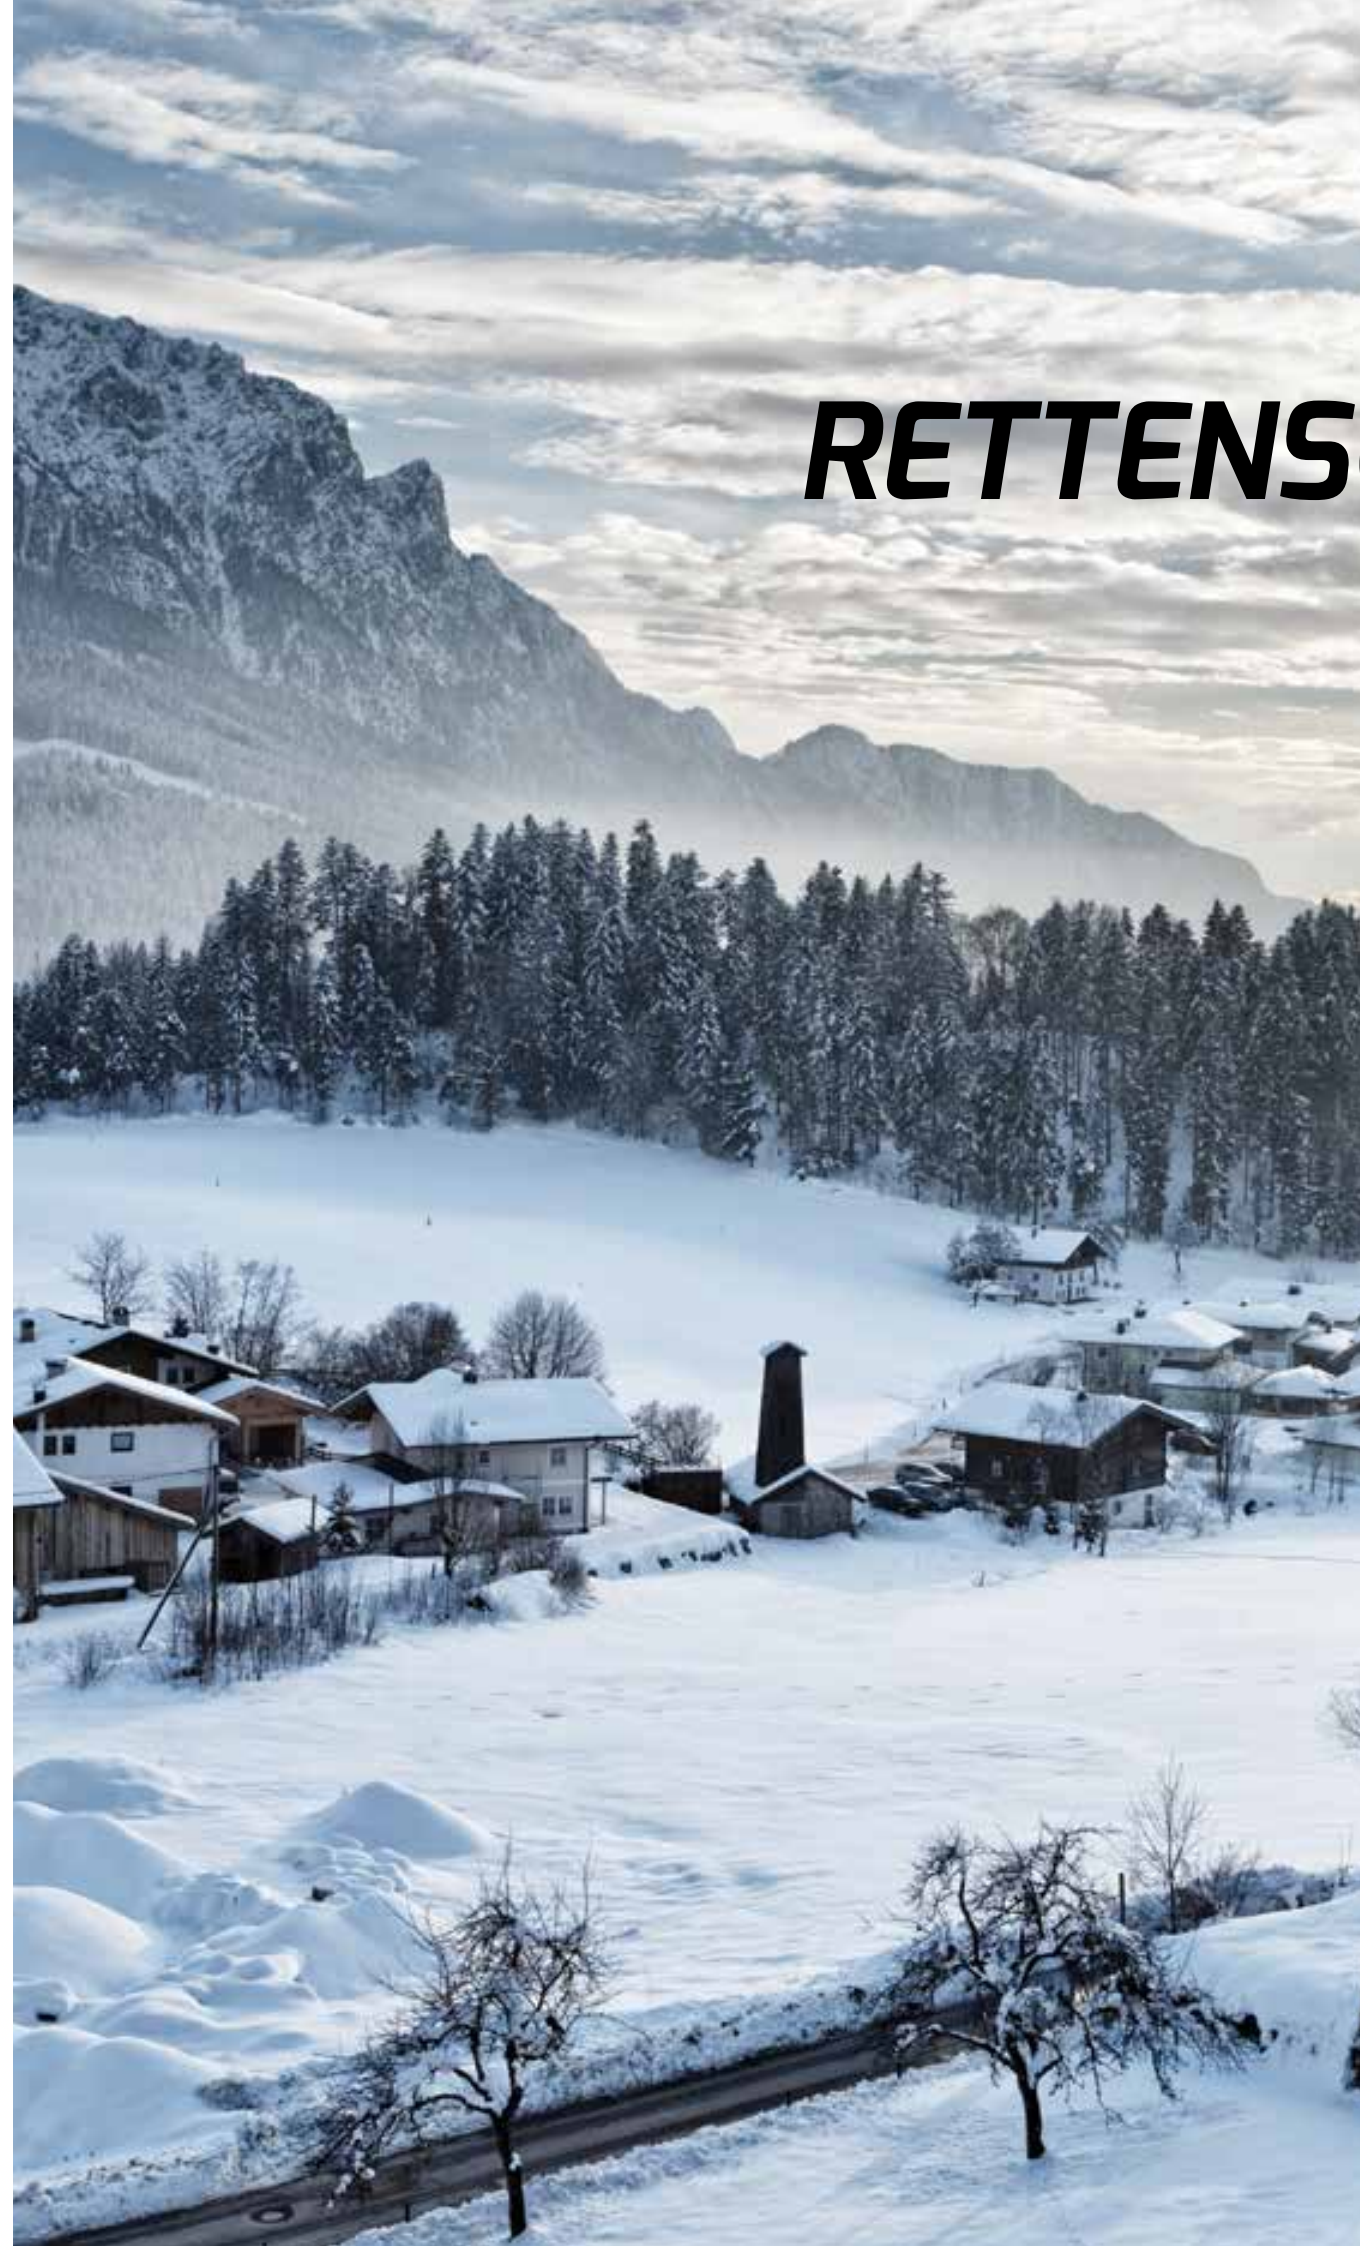

OUR TIP

After an extensive toboggan run, it's best to warm up with tea or mulled wine by the fireplace. Try our mulled wine recipe.

Wash 4 apples well and remove the casing. For the filling, fry 100 g ground almonds in a pan (without fat) and mix with 3 Tbsp. sugar, lemon peel, juice of one lemon, 2 Tbsp. cranberry jam and 3 Tbsp. milk and fill into the apples. Brush apples with butter and bake at 220 °C for approx. 20 minutes.

RETTENSCHÖSS

IDYLIC & AUTHENTIC

Untouched nature and a truly majestic view of the Zahmen Kaiser mountains await you in Rettenschöss at almost 700 m above sea level. Here, time seems to almost stand still, because people also become quieter when the earth rests. On comfortable hikes in the surroundings of Rettenschöss you can enjoy the gentle side of winter. It is an unforgettable moment for young and old when the snowman built together gets a face with coal eyes and a carrot nose. How about a snowball fight - who dares throw the first snowball?

OUR TIP

The Antonius Chapel is in a particularly idyllic location in front of the panorama of the Zahmer Kaiser mountains. Enjoy a roasted apple after a long winter's day outdoors.
