Please smile!

Inside or outside, by day or by night. Set the scene for your team event and make it your anchor. Hold on to the experiences so that they stick in your memory.

Fun accessories make any picture unique. And for customer events, you can incorporate the copyright design of your company or select a special background. You can choose whether the photos are printed out, available for download or presented in an online gallery. The photo booth is supervised by a photographer – you only have to remember one thing: please smile!

*The icing on the cake
