Questions and Answers

Can I take my bike on the Kaiserlift?

No, unfortunately bikes cannot be conveyed on the lift. Should you be out and about in the conservation area with your bike please keep to the designated forest trails.

Can I use the lift with a wheel-chair or take a pram?

If the wheel-chair or the pram can be folded up and locked, and weighs 30 kg max, they can be carried via the transport hooks. Please note that routes on the mountain are not suitable for wheel-chairs.

Can I take my dog with me on the lift?

Yes, as long as they are on the passenger's lap. Dog boxes are also available on 2 chairs – in which larger dogs can be conveyed.

How long is the lift journey?

Travel time to the intermediate station is approx. 15 minutes, while to Breitenjoch mountain station it is approx. 30 minutes, including a change at the intermediate station.

Can my child travel solo on the Kaiserlift?

Children over 115 cm in height may travel solo on the lift, age is not relevant. Smaller children may sit on one of their parent's laps. Ultimately, it is up to lift staff as to whether a customer is 'capable of travel' or not.

Can two children travel together on one chair?

Conveyance of two children on one seat is not permitted.

Where are the toilets?

WC facilities are available in the valley and intermediate station.

Does the lift operate in the event of bad weather too?

The lift operates daily from April 29 to October 29, between 8:30 am and 16:30 pm. The exception is when there is an advisory of severe storms. In the event of doubt, please telephone 05372 6930–363 for further information.

Which lift cards are valid on the Kaiserlift?

Bergbahn Erlebnis-Card Wilder Kaiser-Brixental and the Kitzbüheler Alpen Sommer Card are valid on the Kaiserlift. So too are the Tirol Snowcard (with restrictions from May 1 and 15 in October) and the SkiWelt season ticket (with restrictions in October).

Can the Kaiserlift be used with the KufsteinCard?

Yes, with the KufsteinCard you not only get to use the Kaiserlift, but also enjoy unlimited use of the public swimming pool, Hechtsee, the city bus, Kufstein recycling centre and Eisarena – 365 days a year. It can also be used to visit Kufstein fortress (incl. the fortress lift), the 'Sinnfonie' at Riedel Glass, the kubi library in the Kufstein university building and home games at HC Kufstein DRAGONS. NEW is use of VVT Regiorad (annual subscription & 30 minutes per hire free of charge).

Is there a charge for the car park at the Kaiserlift?

Yes. It is a private car park, for which a fee is payable between May 1 and October 31. A day ticket for € 3.50 is available at both coin-operated machines at the car park. Please have the correct amount, since the machines do not give change and do not take notes. At the machine towards the end of the car park (close to the lift station) payment by bank card is also available. Bicycle parking is free of charge and there is also a VVT Regiorad station.

Why does the lift stop sometimes?

For us, safety is a top priority. In order for people to get on and off safely, on some occasions the Kaiserlift will stop for a short time. However, after a few seconds the journey will continue. Should the lift stop for longer, please remain calm and follow the tannoy announcements.

Is it possible for the lift to go slower during boarding and for getting out?

Yes. Lift staff will provide information before you board. The lift speed will be reduced. To inform staff that assistance is required to get out, you can use the yellow or red marker to highlight your chair.

Nature conservation area celebrates its anniversary

60 years ago, 1963 to be precise, the Kaisergebirge were conservation protected. At that time measures were put in place to protect rare animal species, with measures were put in place to preserve the unique and varied natural surroundings; these measures are still in place today. So this summer season everything is very much influenced by this celebration – 60 years of the Kaisergebirge nature conservation area. Let's take care of animals and nature together!

Places of energy and consciousness

Adlerblick

"Eagle's View" – This energy-filled place is located directly at the mountain station. Anyone who gazes far into the distance with the 'Viscope', will also learn about the surrounding mountains – descriptions of the individual mountains and inns appear in the telescope.

Gratwanderung

"Ride hike" – The ridge of the Hocheck is located between the Steinberg and the Walleralm. The spiral, which is protected from the wind, tempts hikers to enjoy a leisurely rest. Meanwhile the 'Viscope' enables views far into the distance, bringing the mountain peaks closer to those who are interested.

Freiraum - Raum - Zeit

"Freedom - Space - Time" – The basic outline of this space, which is approx. 3 minutes from the mountain station, is a spiral. Here, your gaze is drawn to the north face of the Wilder Kaiser – a natural gem that is worth exploring. It is also where hikers can experience astonishing views on the impressive Kaisergebirge.

Himmelschauen

"Sky-gazing" – The Gamskogel is a magical place to observe the sky and the clouds. The spiral-shaped larch wood bench makes it possible to gaze into all directions, or to just take a seat in the inner section – depending on the sunshine and how your mood takes you.

Almapotheke

"Alpine pharmacy" – Discover the highest Alpine pharmacy in Austria at Berghaus Aschenbrenner. Four modules provide an interactive experience of traditional pharmacy practices and herbal knowledge. A few of the local herbs and their healing effects are presented in words and pictures, and you might even enjoy the smell of some familiar aromas.

Lebensquelle

"Source of Life" – Discover this energy-filled space between the intermediate and mountain stations, on your hike along the forest trail. At Riegen-Bründl gather energy from the power of the water.
