Grüessech! Nice to welcome you as a guest! Below is some more information about the vacation studio.

Arrival:

The arrival can take place (also without our presence) from 16 o'clock. If you would like to arrive earlier, please inquire. This is possible depending on the occupancy.

You can park your car in the marked parking area.

The entrance to the studio is straight from the parking lot, down the stairs, left around the corner and then in front to the glass door.

Next to the entrance door is a keypad with numerical combination: the code will be given to you a few days before your arrival (by SMS or eMail).

Simply set the code and then the door will unlock. To lock the door from outside, just push the arrow-key. The door handle must always point downwards to lock the door.

To lock or unlock from the inside push in the middle of the doorknob.
