

**KLEIN
WALSER
TAL** SEIT 1302

Streams and forests, high moors and alpine meadows with their impressive biodiversity form the perfect backdrop for unforgettable summer experiences.

Kleinwalsertal is a valuable habitat for sensitive alpine flora and fauna that is worth protecting. That is why it has committed itself to the initiative “Experience nature consciously” – true to the motto: the more you know about nature, the more intensely you experience it and the more actively you work to protect it.

There are many ways to explore this unique natural area playfully in summer: On the great nature explorer adventure, families embark on a discovery tour themselves. Freedom and nature, adventure and wilderness – the “Burmi’s Adventure Holidays” family programme promises all of this. During the holiday season, a new activity awaits you every day, sometimes focusing on the fun of exercise and sometimes awakening the spirit of discovery.

A woman with long brown hair, wearing a teal t-shirt and blue jeans, is crouching on a mossy rock by a stream. She is smiling and looking at a small object in her hand. A young boy with blonde hair, wearing a white t-shirt and blue jeans, is crouching next to her, looking down at the object. The background is a lush green forest. The stream is in the foreground, with water flowing over rocks. The text "Time for explorers" is overlaid on the image in a white serif font, with a yellow brushstroke effect behind the word "Time".

A companion
for
families

Burmi, the marmot, is undoubtedly one of the most famous inhabitants of Kleinwalsertal.

His name comes from “Burmenta”, the term for marmot in the Walser dialect. Unlike his fellow animals, Burmi does not hibernate, but remains the mascot for a varied family holiday both summer and winter.

Puzzle fun with Burmi

Discover Burmi's adventure land and solve tricky questions.

The Burmi puzzle involves exploring the surroundings and solving exciting tasks.

The puzzles are available at the tourist information centre in the Walserhaus, Hirschegg – and anyone who has solved all the puzzles can pick up a little surprise there.

Paws up – adventurers, nature explorers and mountain enthusiasts will get their money's worth here.

During the holiday season, there is a different programme every day that is sure to thrill and excite. A climbing adventure, a via ferrata taster course, flying fox or a wilderness day – these are just some of the highlights. With a bit of luck, Burmi himself will even be in on the action.

Go vertical

On the natural climbing wall, secured by the professionals of the mountain school, you will learn to trust your own abilities and feel your way to your own limits while balancing, climbing and abseiling vertically.

Mountain adventure for young and old

The big mountain adventure promises butterflies in the stomach and an extra dose of adrenaline: Warm up on the climbing wall, cross the stream on the rope bridge, flying fox through the Schwarzwasserbach gorge and abseil from a height of 40 metres. This experience is offered both for children and as a shared adventure for the whole family.

A day in the wilderness

Lighting fires without matches, carving bows and arrows, practising stalking techniques, reading tracks and eating stick bread. Accompanied by a wilderness guide, head off into nature and perhaps the most beautiful adventure playground.

holidays

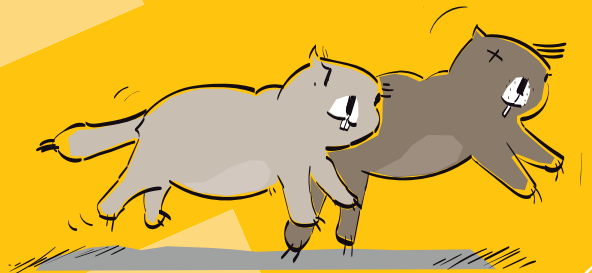

Explore
and
understand

The great nature explorer adventure – more than “just” hiking! Packed into an exciting story, the themed trails invite you to discover and understand nature in a playful way.

The nature explorer adventure includes a series of expeditions for young explorers and nature enthusiasts. Each tour is dedicated to a specific theme and leads into a unique natural area of Kleinwalsertal.

Each themed trail has its own explorer book to accompany families on their hike. Along the way, the explorer stations, which are discreetly integrated into the landscape, offer helpful tips for solving the exciting tasks. In addition, each expedition is enriched by an audio play that tells the story of the marmots Burmi, Burmina and their adventures, thus complementing the hike with an entertaining narrative.

The explorer books including the explorer set are available at the tourist information office in the Walserhaus, Hirschegg.

Hiking tips for families

Hiking pass adventure in Kleinwalsertal: Tours, challenges and rewards

Kleinwalsertal offers a variety of options for all types of hikers with its 185 km long, unspoilt hiking trail network. Whether you are a connoisseur, sporty mountaineer, via ferrata fan or family – there's something for everyone here. The hiking trails extend over three altitudes between 1,086 and 2,533 metres and lead past over 40 cosy huts, alpine pastures and mountain restaurants that invite you to stop for a bite to eat.

You can access the extensive hiking area directly from your accommodation or hotel door. In addition, the Walserbus, which can be used free of charge with the Allgäu-Walser Pass, ensures flexibility. Eight cable cars and chairlifts make the ascent easier and quickly bring hikers to the most beautiful peaks.

The hiking pass accompanies you on your adventure. It's a great feeling when you flick through the pages of the pass at the end of your holiday and look back on the many tours you have done. Those who diligently collect points can earn one of the coveted hiking badges, which are available at the tourist information centre in the Walserhaus in Hirschegg.

Wild water trails

Deep gorges and waterfalls – discover nature in Kleinwalsertal.

No matter whether you are big or small, a hike along the water provides fascination and refreshment for the whole family. Depth Gorges, waterfalls, moors and much more – the forces of nature are palpable and provide variety.

On the Breitach

Along the Breitach, the main river of Kleinwalsertal, you can hike the entire valley - from the Walserschanze to Baad.

There are always opportunities to go down to the stream bed to build dams or cool off on hot days.

Through the Breitachklamm gorge

The hike through this unique natural monument between Oberstdorf and Kleinwalsertal is one of the region's most popular attractions.

The Breitachklamm is the deepest rock gorge in Central Europe and a unique nature experience for young and old.

More information at www.breitachklamm.com.

Schwarzwasserbach

Ⓜ Schröfle, Bus line 5

Species-rich moors, waterfalls and natural spectacles such as the water-filled holes can be found along the Schwarzwasserbach river. Of course, there are also plenty of opportunities to play in the water.

Tip: An expedition of the Great Nature Adventure awaits you along the Schwarzwasserbach.

More on p. 12/13

Kessellöcher

Ⓜ Schröfle, Bus line 5

In the Schwarzwassertal valley, the water has carved its own path through rock and stone. The special thing about the Schwarzwasserbach: It flows both above and below ground. A special highlight are the "Kessellöcher" (water-filled holes), ancient erosions in the stream bed where the wild water has formed swirl holes and basins. Depending on the season and rainfall, this part of the stream down to the natural bridge is sometimes completely dry. Although on such days you cannot see the play of the water masses in the "kettle holes", you can see the traces that the water has formed in the rocks particularly clearly.

Naturbrücke

Ⓜ Sportplatz Au, Bus line 3

The Naturbrücke bridge is probably the most admired natural wonder along the Schwarzwasserbach. Due to erosion, it was preserved as a bridge arch with a span of 5 m above the stream bed.

Also worth seeing are the large whirlpool holes about 40 m upstream, which the Schwarzwasserbach has formed over thousands of years.

A person with long hair, seen from behind, is sitting on a large, dark rock. They are looking out over a vast landscape that includes a valley with green fields, small villages, and distant mountain ranges under a hazy sky. The scene is bathed in the warm light of late afternoon or early morning. The image is overlaid with semi-transparent geometric shapes: a yellow rectangle and a white trapezoid.
